EDUCATION

Higher School of Economics   Sep 2019 – Expected Jun 2023
Bachelor in Applied Mathematics and Information Science

SKILLS

Programming Languages	C++, Python, SQL
Technologies	GitHub, Windows, Linux
Programming Tools	Visual Studio, PyCharm, Jupyter Notebook
Modules	Pandas, Scikit-learn, Numpy, Tensorflow, Keras, Matplotlib, Seaborn

PROJECTS

Made a neural net playing Flappy Bird using DQN algorithm using **Gym** package for **Python**

Wrote my own Snake game on **Python** and a Neural Net for it using genetic algorithm.

ACADEMIC ACHIEVEMENTS

- Winner of "I.J. Verchenko Interregional Olympics in Mathematics and Cryptography" Olympiad for schoolchildren.
- Winner of "Lomonosov" Mathematics Olympiad, Olympiad for schoolchildren.
- Finished "Introduction to Data Science and Machine Learning" course on stepik.org
- Finished "Introduction to Machine Learning" course by HSE and Yandex School of Data Analysis on coursera.com
- Finished "Basics of Statistics" course on stepik.org
- Finished "Intro to Machine Learning" course on kaggle.com
- Finished "Intermediate Machine Learning" course on kaggle.com
- Finished "Natural Language Processing" course on kaggle.com

EXTRA ACTIVITIES

- Gaming, sport
